

ODE parameter estimation

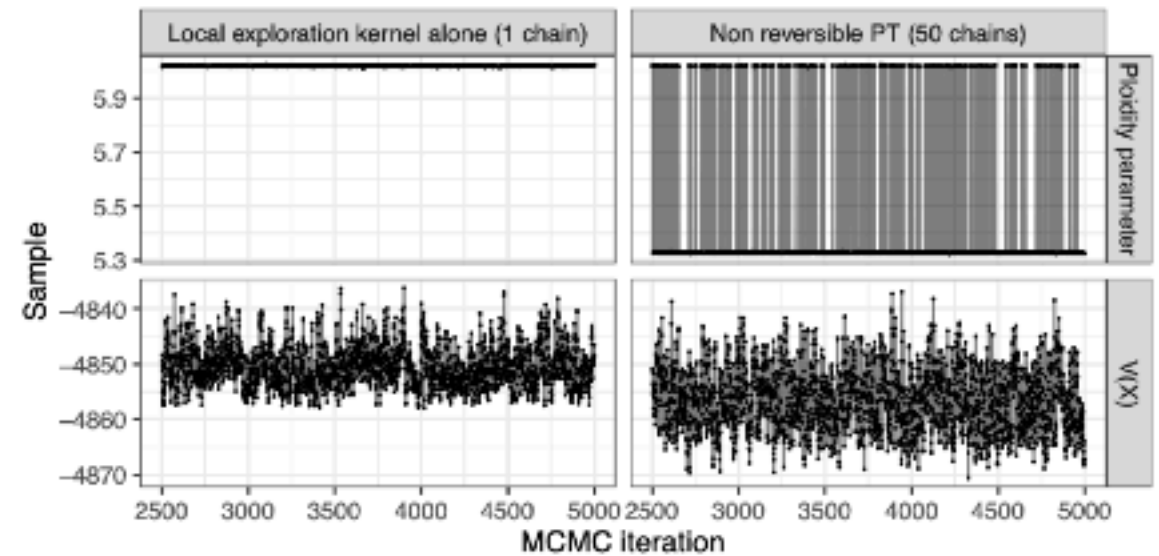

Ising model

Bayesian Mixture Model

Copy-number inference

EMPERICAL JUSTIFICATION

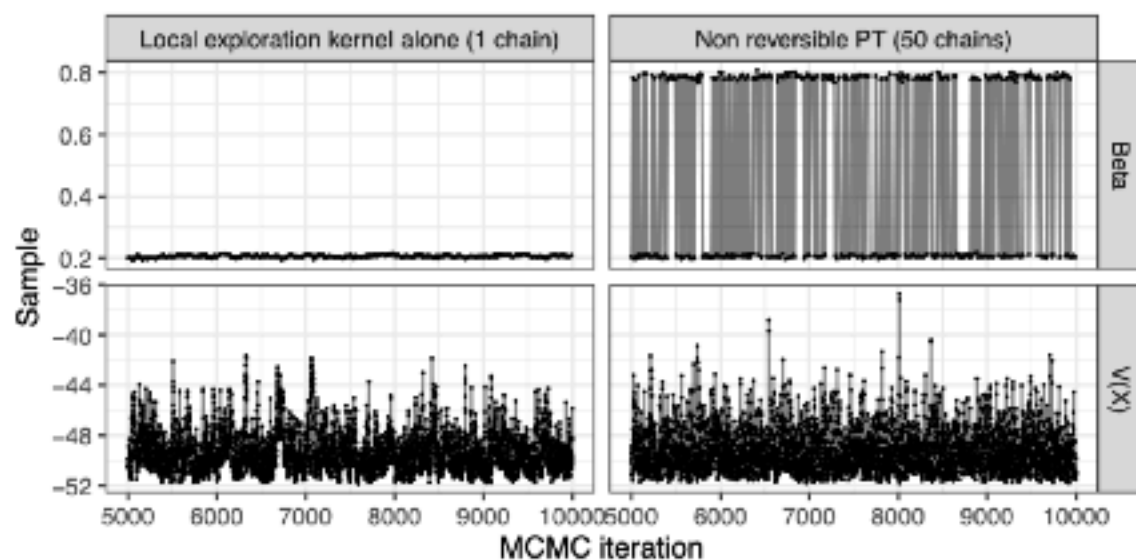

► ELLE is much weaker than assuming X_t is independent in t

► In general, energies converge faster than the target!

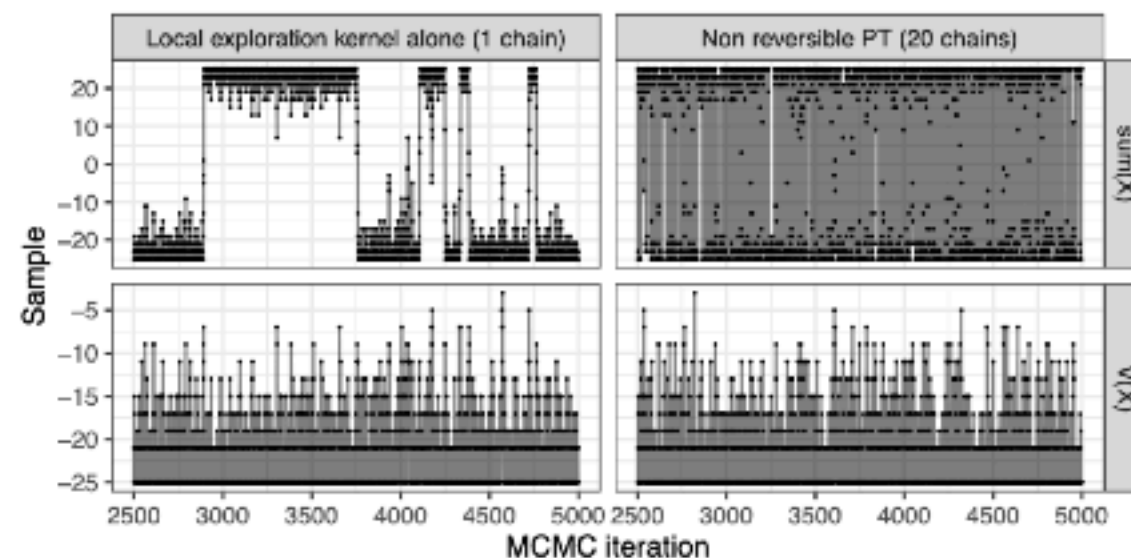

EMPERICAL JUSTIFICATION OF ELE

- ▶ ELE is much weaker than assuming $\mathbf{X}_t$ is independent in t
- ▶ In general, energies converge faster than the target!

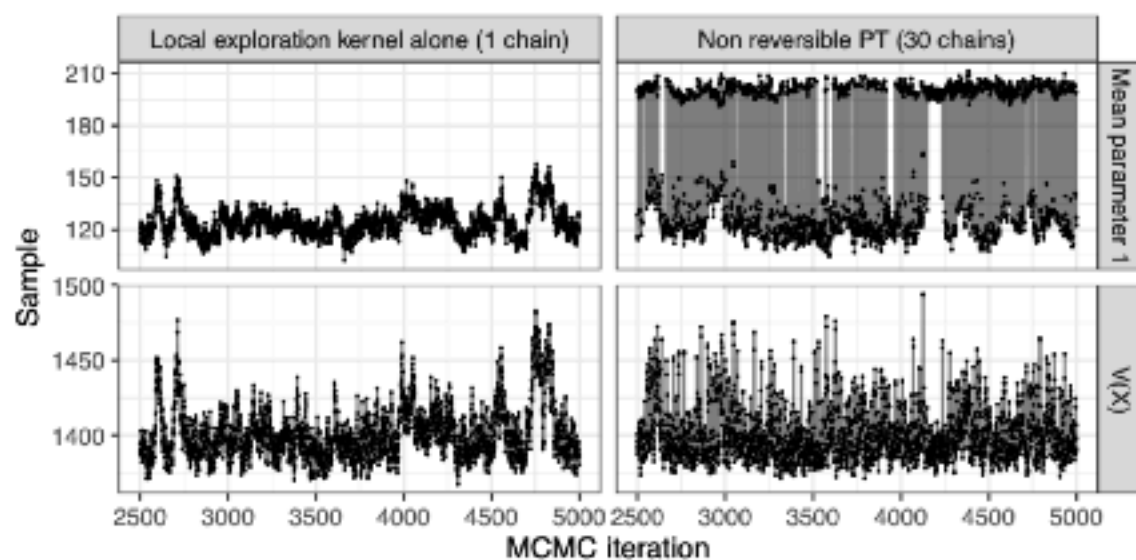

ODE parameter estimation

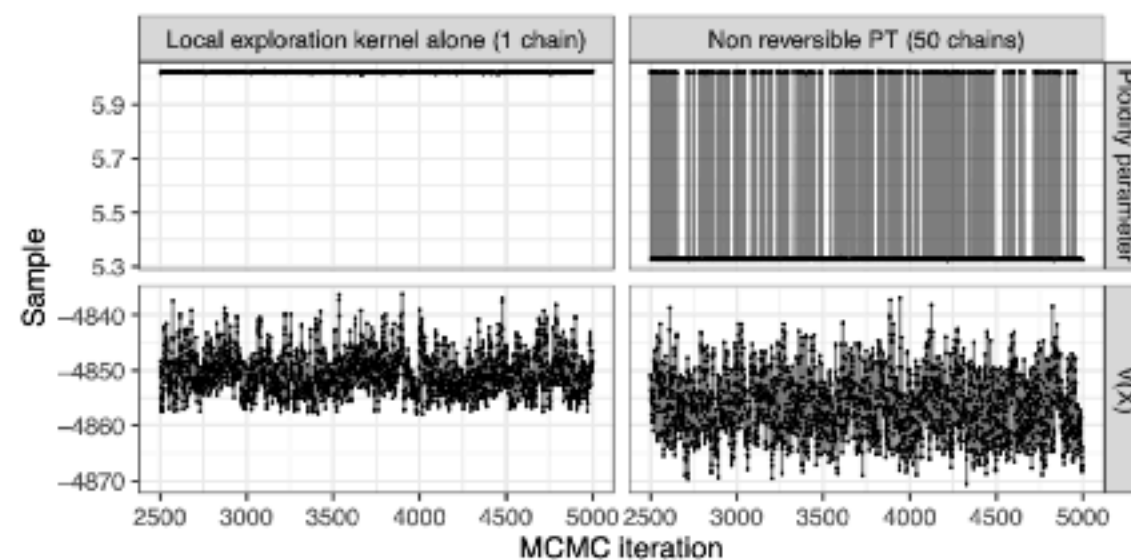

Ising model

Bayesian Mixture Model

Copy-number inference
